

RODEO

MUSIC FOR COWBOYS AND COWGIRLS

Aaron Copland was a famous American composer. One of his famous compositions is **Hoedown** from a ballet titled Rodeo. In this piece you can hear the instruments of the orchestra imitating the sounds of the rodeo. The woodblock (a percussion instrument) sounds like the clip-clop of a horse running!

In Rodeo you will see that ballet is more than pink tutus!

The dancers in Rodeo wear full rodeo gear.
